

SOMAPP FOUNDATION ANNUAL REPORT 2021

SOMAPP
Foundation

Transforming Education

ABOUT SOMAPP FOUNDATION

Established in 2021, SOMAPP Foundation is a shared commitment to ending this learning crisis. We support marginalized young people with the greatest need and focus on attaining quality education and skills of the future.

We need technology in every classroom and in every student and teacher's hand, because it is the pen and paper of our time, and it is the lens through which we experience much of our world. Education unlocks doors to opportunity and prosperity. Yet in lower-income families across Africa, hundreds of millions of girls and boys are not learning even basic reading skills by the age of 10, and close to a quarter of a billion children are still completely excluded from education. With our flagship mobile App "SomApp" we strive to ensure Opportunities for All in attaining quality education through fully funded scholarships and access to Digital Skills trainings.

MISSION AND VISION

Vision

Envisage an organization that endeavors to build a victorious community on healthy, education, environment, technology, social and economic independent.

Mission Statement

To improve the standard of living of the people in a community by planning on the utilization of the available resources and guiding on the implementation of the plans that will enable them to eradicate extreme poverty.

Social Media

Somapp Foundation continued to expand its use of social media in order to be as informative and transparent as possible to its stakeholders. Facebook, Twitter, YouTube, Instagram and LinkedIn are used to inform stakeholders and keep them up to date on projects and other activities

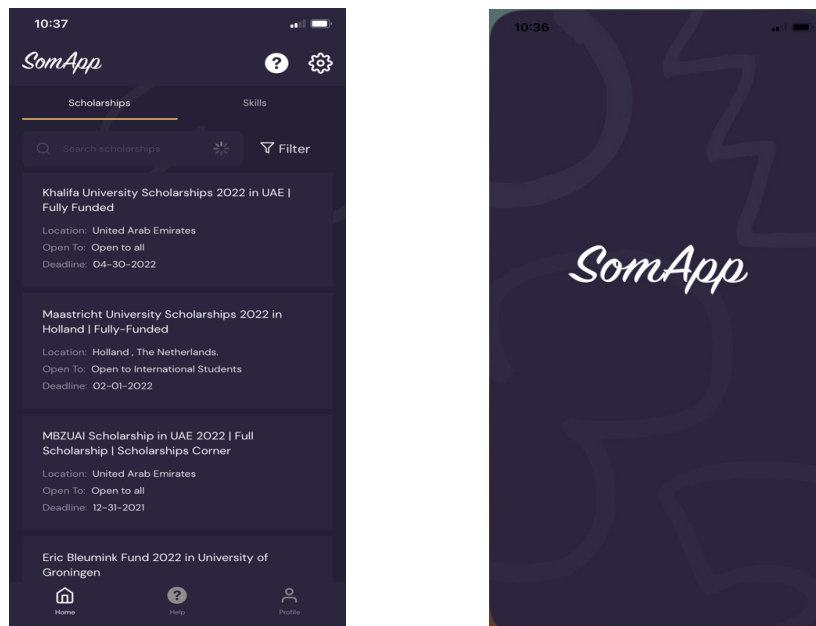

The website provides all organizational information, such as the organization's mission and vision, soma application features, how it works, organization partners, testimonials and key contact information.

ACTIVITIES

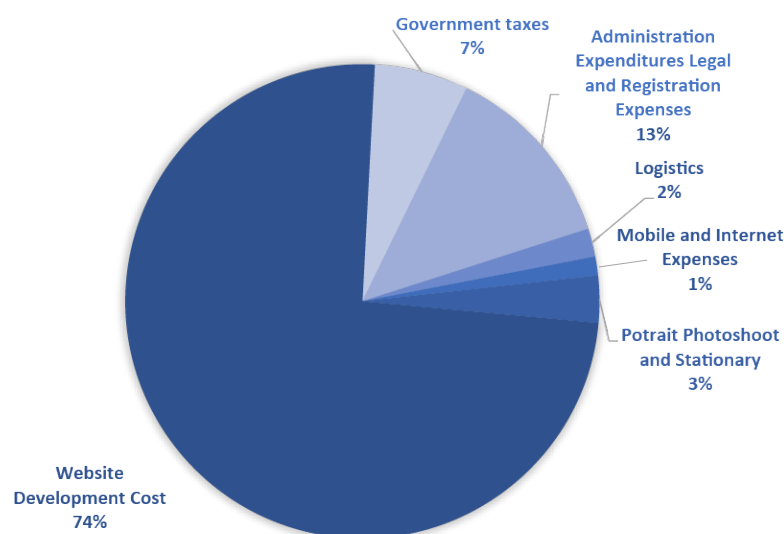

In the year 2021/22, we focused on building our application and testing our product if it was ready to be used by people, we wanted the application to be easily accessible, full with content, easy to use and available in all platforms, after months of testing and rebuilding the application it was realized and here is how its final look is

MOBILE VIEW OF THE SOMA APPLICATION

FINANCES

Our expenditures were mostly located in building of the application, only % was used for administration purposes and % for government taxes as seen below

Challenges

As an organization there are few setbacks that we are facing that sets a hurdle in implementing our programs;

1. Delay in response from the government institutions, this affects the time planned for delivery of certain initiatives that the organization wants to share with the youth.

Looking forward

Years to come our work will benefit more youth and community members to confidently tackle unconnected challenges when it comes to quality education and accessibility. At this stage our organization is focusing on improving program that will create much impact in the communities. We are currently working on strengthening government and other local stakeholders' partnership while continuing searching for international support.

Thank you

Somapp Foundation extends our gratitude to all of our staff and supporters who made our work possible this year. We are honored and grateful for your support and looking forward to many more years of bringing meaningful impact to the young people in our communities.
